HENDERSON'S SUPERIOR :: BULBS

-For-

Autumn Planting.

May we book your order

For Shipment as Bulbs Arrive during Summer and Fall?

Orders placed with us early enable us to estimate our requirements more closely, and by including your order with ours, for importation, we can afford to sell you at lower rates than in the Autumn, for the reason that when importing on a certainty, we take less risk in having a surplus left. Should we be able to offer anything at a lower rate later in the season we will give you the benefit.

We are the Largest Importers, Dealers and Growers of Bulbs in America, and handling the unusually large quantities that we do, and being experienced Forcers and Growers ourselves, we are in consequence enabled to select superior stock at advantageous prices, allowing us to offer Superior Bulbs at reasonable rates.

REMEMBER DD

The Prices of our Bulbs include

- PACKING AND CARTAGE and placing free on board cars or boat in New York.

 You have no duty, ocean freight from Europe, nor custom house brokerage expenses to pay.
- THE NUMEROUS AND FAST TRAINS to all parts of the U. S. from New York give us pronounced advantages for prompt and rapid shipping at low freight rates.
- WE RESERVE THE RIGHT TO ADVANCE PRICES on any Bulbs, Roots, Plants or Seeds, before acceptance of order should crop prospects, injury in transit or any unusual conditions prevail to indicate a serious shortage.

TERMS:

TERMS TO PARTIES OF APPROVED CREDIT.

Accounts are due net in two months, 2% off for cash in ten days or 3% off for cash with order or before shipment.

We Deliver all Bulbs and Roots—properly packed and in good condition—into the hands of transportation companies. After that our responsibility ceases. Consignee then assumes all risks of heating, freezing and delays—P. H. & Co.

PETER HENDERSON & CO. give no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

SPECIAL NOTICE ABOUT TIME OF SHIPMENT.

When you order, please state if you wish your bulbs to be shipped as they are ready, or if we shall hold, and make one or more shipments. In absence of contrary instructions, we forward the "Early Bulbs" as soon as they are ready—we term this our "August Shipment"—this would include Lilium Harrisii and Candidum, Freesias, Roman and other French Hyacinths, Paper white and Double Roman Narcissus, Ornithogalum, forcing Anemones, Alliums and Callas.

Our "September Shipments" includes the general line of Dutch bulbs, such as Hyacinths, Tulips, Narcissus, Crocus, Lilium Longiflorum—if ready, etc.

Our "November Shipments" includes Lily of the Valley, Spirea, Gladiolus, Tuberoses, Peonias, Amaryllis, the late Lilies, etc., etc.

PETER HENDERSON & CO. give no warranty, express or implied, as to description, quality, productiveness, or any other matter of any Seeds, Builbs or Plants they send out, and they will not be in any way responsible for the crop. If the purchaser does not accept the goods on these terms they are at once to be returned.

HENDERS

Please book my order for the undermentioned articles to be shipped as ready, crops permitting, during the Summer and 37 Cortlandt Street, New York. 35 and 3

HENDERSON'S SUPERIOR

Early "Roman" Hyacinths.

THE flowers, while smaller than those of the Dutch Hyacinth, yet are produced in much greater abundance—each bulb bearing several very graceful flower spikes. The delicious perfume, earliness and profusion of bloom have made Roman Hyacinths exceedingly popular; they are so easily grown and so early that if potted in August and September they can be brought into flower in November and December, and a succession can be had in bloom throughout the winter. Roman Hyacinths are not considered hardy enough for open-ground culture north of Washington, though in our grounds near New York they have proven perfectly hardy, slightly protected. For cutting purposes the Roman Hyacinth is the finest bulb grown. (See cut.)

What Florists Think of Henderson's Superior Bulbs

"I ordered Roman Hyacinths of you in the fall and must say I never saw finer bulbs. Some of them had as many as fifteen, and a few had seventeen spikes of flowers."

J. O. GRABB, Cedartown, Ga.

"Will say that your Bulbs were the best I ever handled. The results were splendid."

E. C. STAMMERJOHN,

Vine Clad Greenhouses, Boonville, Mo.

NARCISSUS, PAPER WHITE

"Grandiflora," or Large Flowering.

This large flowering type is such an improvement over the ordinary "Paper White" that we have discontinued offering the latter. The "Large Flowering" is more vigorous and earlier, producing purest snow white flowers of large size and good substance in large trusses. The Paper White Narcissus is becoming very popular for growing in bowls of water like the Chinese Narcissus. In fact the Paper White gives so much better satisfaction than the Chinese Lily that it is supplanting the latter for water culture.

Price of extra sized bulbs, 25c. per doz.; \$1.00 per 100; \$8.50 per 1000

White Callas.—Dry Bulbs.

(Expected for shipment in September.)

The dry bulbs are superior for forcing purposes, as they come into bloom quickly and require less room—making less foliage. Dry bulbs will flower nearly twice as abundantly as plants that have been kept growing or only semi-dormant.

Price, Extra Size Bulbs, (4½ in. circumference) \$1.00 per doz.; \$6.50 per 100; \$60.00 per 1000. Mammoth Bulbs, (5½ inches in circumference) \$1.25 per doz.; \$8.00 per 100; \$70.00 per 1000.

Six bulbs of one variety sold at dozen rates; 25 at 100 rates; 250 at 1,000 rates. Postage will be extra on bulbs desired by mail.

NAMED DUTCH HYACINTHS.

Strictly "Top Roots". The highest grade of Bulbs produced in Holland—not Second size so often sent out as Firsts.

In this grade we offer the largest and best bulbs that the varieties produce. Some kinds, of course, make larger bulbs than others, but purchasers may rely on getting the pick of the crop. These selected "top roots" as the Hollanders call them, naturally cost a little more than the run of crop, but are worth the difference where largest spikes furnished with the greatest number of bells are desired for pots, glasses and exhibition, for the flowers of Hyacinths in an incipient form are stored in the hearts of the bulbs before maturity, exactly as they afterwards develop, so that if you purchase younger, cheaper bulbs, containing in embryo fewer bells on a spike, no system of culture can make them produce more that, season. Therefore, for the finest results the best, oldest and largest bulbs (within certain limits) should be chosen for these usually contain the most perfect and greatest number of flowers.

The figures 1, 2, 3 and 4 after the name of the Hyacinth indicates the relative time of flowering—the 1's flower together and are the earliest, No. 4 the latest.

HENDERSON'S SPECIAL SECOND SIZE NAMED HYAGINTHS.

For Bedding and Forcing.

Henderson's Special Hyacinths (equally useful for bedding or forcing) are larger sized bulbs than those put in ordinary mixtures. They are of the same age as the first size Named Hyacinths offered by us on pages 2 and 3, from which these are the second selection. They will produce fine spikes of bloom, and the different sorts as offered, being of one shade of color, render them of value for bedding in designs, enabling one to obtain the exact color effect desired, which is a great advantage over mixed reds, mixed blues, etc., at but a slight advance in price.

Six bulbs of any one variety sold at dozen rates; 25 at 100 rates; 250 at 1,000 rates. Postage will be extra on bulbs wanted by mail.

"COTTAGE" TULIPS.

HESE grand late flowering garden Tulips are on the rising tide of popularity. They do not supplant early Tulips for forcing, nor bedding, but for mixed gardens, herbaceous borders—where these late Tulips need not be disturbed, they will prove a source of great satisfaction, being very hardy, and continue to grow, increase and flower for many years. Of exceptional value when cut for vases.

GIANT DARWIN TULIPS.

HESE gorgeous new late or May-flowering tulips are very stately and beautiful—producing immense flowers on tall sturdy stems attaining a height of from two to three feet. The flowers are models of perfection in form, lasting wax like substance—and in a great variety of both dainty and richly brilliant colorings. The Darwin Tulips are exceedingly effective when grown in groups of one variety in the garden or herbaceous border. As cut flowers they are unsurpassable. Darwin Tulips may be successfully flowered in pots or pans in the house in winter if grown cool and not forced into bloom before March.

	Doz.	100
Ariadne. Glossy vermillion; interior scarlet-rose. Apricot. Reddish apricot with a coppery sheen. Baronne de la Tonnaye. Carmine rose toning off to pink at edges. Clara Butt. Soft salmon pink shaded rose. Dream. Rosy lilac and mauve with purple interior.	.65 .35	4.50 2.50 4.00

HENDERSON'S SUPERIOR LILIUM HARRISH

THE TRUE BERMUDA EASTER LILY (LILIUM HARRISII)

Henderson's Superior

BERMUDA EASTER LILY

LILIUM HARRISII.

We wish to lay particular stress upon the size and quality of our Bulbs which are larger, healthier and better than those usually sold—for the reason that no expense is spared in manuring and cultivating, spraying, etc. Experience having shown us that bulbs so treated are incomparably superior

PRICES OF THE TRUE BERMUDA EASTER LILY BULBS.

Bulbs Ready for Shipment—August to November.	Doz.	100	1000
First Size Bulbs. (5 to 7 inches in circumference.) The best for "Earliest" forcing and particularly for cutting with long stems. Bulbs should produce from 4 to 6 flowers. (400 bulbs in a case)		\$4 .50	\$40.00
Intermediate Size. (6 to 7 inches in circumference.) These are good bulbs for either pot culture or for cut flowers. The bulbs should produce from 6 to 8 flowers (350 bulbs in a case.)		5.00	48.00
Extra Size Bulbs. (7 to 9 inches in circumference.) This is the most popular size to grow as pot plants for decoration and equally as valuable for cutting. Bulbs should produce from 8 to 12 flowers. (200 bulbs in a case).		8.50	83.00
Monstrous Size Bulbs. (9 to 11 inches in circumference.) These are usually grown for specimens in pots, for exhibition and decoration. Each bulb should produce from 12 to 18 flowers. (125 bulbs in a case.)		18.00	175.00

WHAT FLORISTS THINK OF HENDERSON'S EASTER LILY BULBS.

"We have been more successful with your Harrisii bulbs than have any of the other florists in the vicinity of Wheeling with bulbs from other sources."

OSCAR WRIGHT, Moundsville, W. Va.

"Please book my order for Bermuda Easter Lilies (L. Harrisii.) Those I had from you last Fall were the best I have grown in years. They were certainly fine."

C. BECHSTEDT, Florist,

Oswego, N. Y.

"FORMOSA" LONGIFLORUM LILIES.

FOR EARLY FORCING.

For shipment September to December.

This type of Lilium longiflorum from the Island of Formosa has been grown experimentally by a few florists in the U.S. the past two seasons and in most instances has proven the claim that it can safely be forced earlier than any other longiflorum type (excepting L. Harrisii). The plants are of healthy strong growth, producing freely, large pure white flowers of splendid lasting substance.

We understand that some stocks of alleged Formosa "Lilies" put out last season were not quite satisfactory, being mixtures of various longiflorum types, but no word of complaint has been received regarding our strain. In fact we have received several commendatory letters with accompanying orders for "Henderson's Strain of Formosa Longiflorums." Our bulbs are coming from the same grower this season as in the past.

PRICES OF FORMOSA LONGIFLORUM LILY BULBS.

											Doz.	100	1000
First size	bulbs	6	to	8	inches i	in circ.	(350	in a	cas	e)	. 60	4.00	37.50

Mammoth					61	64	(200	66	46)	1.50	10.00	95.00

Case Lots Sold at the 1000 Rate.

LONGIFLORUM GIGANTEUM

This type produces flowers of larger size, perfect form and of superior substance; stems marked black. It is later than Formosa Longiflorum, but it is highly thought of for late winter and Easter forcing.

	Doz.	100	1000
6 to 8 inch bulbs, (400 in a case)	\$.60	\$4.00	\$38.00
7 to 9 " " (300 " ")	1.00	6.50	62.00

Case lots supplied at the 1000 rate.			

-FREESIA REFRACTA ALBA.-

(Ready for Delivery in August.)

Popular bulbs, flowering in the winter and spring. They force readily and can be had in bloom by Christmas if desired and a continuous display of bloom may be kept up through the winter by proper handling. The flowers—with a yellow throat—are produced 6 to 8 on stems about 9 inches high, and are particularly useful for cutting, remaining in good condition if kept in water for two weeks.

Mammoth Bulbs, 4 in. up, 20c. doz., \$1.25 per 100, \$10.00 per 1000.

Extra Size Bulbs, ½ in. up, 15c. doz., \$1.00 per 100, \$8.50 per 1000.

The smaller trade sizes we no longer offer.

-NEW GIANT WHITE FREESIA.-

"FISCHER'S PURITY."

A distinct and greatly improved type producing large sprays of purest snow white flowers of immense size and deliciously fragrant; it is very free blooming and of great value for forcing for cut flowers.

California Grown "Purity" (August Delivery) Mammoth Bulbs, 35c. doz.; \$2.75 per 100; \$25.00 per 1000. Extra large Bulbs, 30c. doz.; \$2.25 per 100; \$20.00 per 1000.

European Grown "Purity" (September Delivery) First size Bulbs, 25c. doz.; \$1.50 per 100; \$12.50 per 1000.

Freesia Leichtlinii Major. The improved yellow Freesia, 20c. doz.; \$1.25 per 100; \$10.00 per 1000.

Henderson's Superior Northern Grown

...LILIUM CANDIDUM...

(Ready in August.)

Our Lilium Candidums are the thick, broad-petalled type so superior to the narrow-petalled south of France stock. The bulbs are plump, heavy and healthy. This popular, fragrant, snow-white, hardy garden Lily is also known as "Annunciation Lily," and "Madonna Lily." It grows 3 to 4 feet high, and blooms in the open ground in June. When grown in bold masses or in rows these lilies are especially effective, the brilliancy of their snow-white flowers against surrounding greenery of shrubs, grass and trees is very telling. This lily dislikes being coddled, thriving best when it can remain undisturbed for years in good garden soil.

Price, 8 to 9 inch bulbs, 65c. doz.; \$4.50 per 100; \$40.00 per 1000.
9 to 10 " " 75c. " \$5.00 " \$45.00 "

LILY OF THE VALLEY.

Expected for Shipment Early in November

HENDERSON'S GIANT EARLY FORCING.

The finest grade of Lily of the Valley in the world for early winter flowering. They will bear twelve to sixteen large bells on strong stalks with splendid foliage even when forced for extra early; they are equally superior for later or successional crops. The pips are strictly 3-year old. They average large, plump and regular, with extra long roots.

Henderson's Giant Early Forcing (described above,) \$1.75 per 100, \$16.00 per 1000, 10,000 lots at \$15.00 per 1000.

Henderson's Large Flowering Hamburg. The florists' standard sort for late winter forcing. They are good keepers in cold storage. They will bear many bells on strong stalks with good foliage. 3 year of pips. \$1.50 per 100, \$13.50 per 1000, 10,000 lots at \$13.00 per 1000.

Fortin's Giant. The largest flowering type, for open ground only. 30c. per doz., \$1.75 per 100, \$16.00 per 1,000,

LILY OF THE VALLEY CLUMPS.

Large clumps for open ground planting 20c. each, \$1.75 doz., \$14.00 jections

SPIREA or ASTILBE.

LARGE IMPORTED CLUMPS SUITABLE FOR FORCING.

(For Shipment in November

Gladstone. A new, large flowering Spiraea Japonica—ar ::::

over all other white-flowering Spiraeas—and one of the inest winter and spring flowering pot plants grown; the immerable series of flowers are as white as snow, and are borne on ere the series of 18 inches high. Well-grown plants bear 25 to 40 or the series of the trusses, practically enveloping the plant with a feeth continuous imported clumps. \$1.50 per doz.; \$10.00 per 100; \$1.00 cm.

The New Pink Spiraea "Queen Alexandra." This is the little of the same dwarf compact habit as the little of forces equally as well under the same cultural end the same in to bloom a few days later. If slightly shale the same cultural end to bloom the color will be brought out to perfect the W. I. a write it in bloom are very attractive and salable. SPECIAL IMPORT OFFER OF AZALEAS.

(Expected for Shipment about October 20th.)

We offer for delivery in the Fall of 1911, f.o.b. New York City, Indian Azaleas, double and single, all named varieties, leading market kinds, shapely plants, well headed, at the prices quoted below. This is a specially low import offer, and your early order is solicited. It is to your interest to order now and take advantage of the low prices.

These plants will be carefully packed and can be safely sent by freight in the fall to any part of the country. We offer the following varieties: Mme. Van der Cruyssen, Bernhard Andrea Alba, Deutsche Perle, Mme. C. Van Langenhove, Vervaeneana, Empress of India, Helen Thielman, and Simon Mardner.

ORDER AT ONCE TO SECURE THESE RATES.

IMPORTANT NOTICE.

On account of the lateness of Easter next year—April 7th—we will not import any Azaleas for spring sales. It is imperative, therefore, to purchase the coming Fall. Please order as soon as this list arrives; importations will be based strictly on advance orders booked before September.

Henderson's Modern HERBACEOUS PEONIES.

A SELECTION FROM THE WORLD'S NEWEST AND BEST VARIETIES.

OUR DEPARTURE IN OFFERING PEONIES: It is the rule among most sellers of Peonies to send out divided roots, that is older plants cut into several 3 to 5 crowned roots. These of course can be sold at a lower price, but all Peony purchasers should know that normal or characteristic flowers of maximum size will not be produced on these divided roots for two or three years. As most of our customers prefer to pay a little more and get older undivided roots therefore we are this year offering roots of 1, 2 and 3 years growth from the divided stage. These according to age, will give a greater quantity of perfect bloom the succeeding seasonif planted, between September 1 and November 1; the earlier the better so they can make roots in the fall.

planted, between September 1 and November 1; the earlier	1 year	2 year	3 year
